

The DERAPAGE Tornado Super light chassis (SLC) holding the bends

The latest Super Light Tornado Chassis (SLC) breathes new life into the traditional DERAPAGE model and the most highly awarded in the history of eyewear. It is transformed by its dynamic appearance and daring construction: stylish, comfortable and ultra light.

The temples of the new SLC models are visibly anchored to the milled steel frontal frame, giving the glasses a clean and sporty look. The micro-riveting normally reserved to the exclusive world of luxury jewellery gives an completely streamlined effect.

The finishes play homage to the world of motor racing, in line with our DERAPAGE timeless design. Models are available in gloss or matt, in subtle shades of brown, grey, green and red. The colours of the metal frames are coarse and streaked, reproducing the effect of tires skidding on asphalt.

Frames are resolute and mainly masculine, available in different shapes and sizes.

THE LOOK IS FOR THOSE WHO DARE.

since 1985
