

VANNI

MADE IN ITALY, FOR SURE.

Colours by VANNI: our take on colour

VANNI believes that colour in an inexhaustible universe of light and splendour. A call back to life, an invitation to find your own original and personal style that says something about you. Colours by VANNI is a vibrant collection of metal optical glasses.

Raw Material:

milled metal.

Design detail:

a refined and sophisticated look created on the lug of the frame. The fine milling creates vertical stripes in contrasting or different shades of the same colour in base relief.

Shapes and colours:

balanced shapes this year; the classic rectangle or panthos, also available with a double bridge. The colours are subtle and understated in hues of tone on tone, or in different shades of the same colour. Frontal frames are characterized by sombre tones with opaque or stain finishes.

VANNI eyewear is made in Italy, for sure.
