

VANNI

MADE IN ITALY, FOR SURE.

SPIRIT by VANNI,
10 years of history in 1 pair of glasses

One pair of glasses tells the story of 10 years of VANNI creative excellence. A collection of optical and sunglasses that represent the distillation of VANNI, born from a balanced and aesthetic mix of exclusive acetates that have created a brand identity and colours that are many and one: the spirit of VANNI is BLADE, TANGRAM, MAPS, PIXEL, RASTER and WIRED.

Raw Materials:

exclusive acetate block created in our VANNI design centre.

The Design Detail:

the fusion of different and exclusive acetate sheets that create a patchwork of original patterns, every combination inspired by a certain colour that guides the spirit of 10 years dedicated to creativity.

Shape and colours:

a pair of sunglasses, female in shape. Colour is the protagonist of this model which celebrates distinctive VANNI chromatic choices: red, pearly black, blue and green/lime. In every model the base colour is translated in a number of different patterns to generate an exciting result.

VANNI eyewear is made in Italy, for sure.
